## ETS Combined Refrigerator/Freezer (DC)

VCPF-60DC

VC PF-95DC

These portable freezers are lightweight. They double as great bar fridge, or an extra cooler to frozen or chilled keep samples/specimens/plasma in the vehicle while you are on the go. The entire portable freezers are built using an impact resistant polypropylene exterior that offers outstanding protection. Simply set the temperature and the electronic temperature controller does the rest.

The Combined Refrigerator/Freezers are in a league of their own. With two independently controlled compartments, the configuration is flexible. Choose from the typical setup of fridge/freezer, or set both compartments at the same temperature to create a larger refrigerator or freezer.
